

Congratulations on your acceptance into the Masters of Healthcare Administration program at SIUC – home of the Salukis! We look forward to taking this journey with you toward a graduate degree in Healthcare Administration.

Please take a minute to complete a short new student survey online at: <https://www.surveymonkey.com/r/Grad-student>

It is our intention to meet every need of our graduate students, many who are already working professionals in healthcare. Our 100% online program can be completed as your schedule allows. For accreditation purposes, three courses (MHA 520, MHA 575, and MHA 585) will be held synchronously through live video conferencing. Mapping your course sequence to completion from the start is highly recommended to meet your graduation goals. Please see suggested course sequence.

To register for classes, visit Salukinet at <http://salukinet.siu.edu/>. Enclosed are the following resources to help get started:

- Suggested Course Sequence
- List of Course Curriculum
- Self-Registration Instructions

Interested in earning a dual MHA and MHI Degrees?

If you are interested in a Masters of Health Informatics (MHI) in addition to the MHA degree, you should apply to the MHI program during the last semester of the MHA program. The benefit of earning both degrees from our school is that the second degree only requires an additional 21 credit hours of MHI coursework.

On behalf of the faculty and staff at the College of Applied Sciences and Arts, and the School of Allied Health, welcome to our program. We wish for your experience to be memorable and rewarding, positioning you for a leadership position in the dynamic field of healthcare.

Sincerely,
