

Dear Prospective Radiologic Sciences Student:

Thank you for your interest in Radiologic Sciences at Southern Illinois University Carbondale.

Because of a variety of circumstances, including rules of accreditation, limitations of facilities, and faculty-student ratio, we are limited to a specific number of students. These students are chosen, by a process of selection, for admission to the program. In order to give each applicant a thorough and fair evaluation, an application procedure must be completed. To be considered for admission, you must complete and submit all requested application materials for evaluation. **It is very important that you follow the procedures accurately and that your file is completed as soon as possible.** Only completed files will be considered. Review of completed applications will begin in mid-January. Admission to the program will close when all positions in the class are filled.

Prior to participating in internships, students may have to undergo a “**Clinic Site Required**” criminal background check and drug screening.

If you are accepted, you must make an appointment with one of our advisors for registration.

If you have any questions concerning the program, or the admission process, please feel free to contact me.

Sincerely,

Dr. Michael L. Grey, Ph.D., R.T.(R), (MR)(CT)
MRI/CT Program Director
