

Applications are accepted throughout the academic year.

CARE faculty make decisions on new student acceptance based upon multiple criteria. These include: (1) a completed Graduate School application, (2) a minimum undergrad GPA of 2.75, (3) three letters of recommendation (we prefer at least one from a prior instructor), (4) a well-written statement of professional goals, and (5) completion of an interview process.

When applicable, passing TOEFL scores are required.

All documents distributed from the CARE office are provided in alternate formats on request. Sign language, TTY, and closed captioning (Teleconference) are available for interviewing.
