

Mortuary Science and Funeral Service

The bachelor's degree program in Mortuary Science and Funeral Service is the only one of its kind offered at a public university within the state of Illinois.

Mortuary Science at Southern

Provides a challenging and rewarding academic curriculum that teaches students about the total aspects involved in the death and bereavement process.

The curriculum focuses on the funeral director's responsibility to help a family during its greatest time of need and on the embalmer's responsibility to disinfect, preserve, and restore human remains.

Making the Choice to Come to Southern

The bachelor's degree program in Mortuary Science and Funeral Services is the only one of its kind offered at a public university within the state of Illinois.

All MSFS faculty are licensed funeral directors and embalmers with a variety of experience. They are not only dedicated to the highest quality of education, but they are actively involved in professional research and state and national funeral associations.

Admissions

Due to a variety of circumstances, including rules of accreditation, limitations of facilities/internship sites, and faculty-student ratio, enrollment in the program is limited. It is recommended that students apply for admission well before the fall semester they wish to begin enrollment. Following admission to the University, students must submit a Mortuary Science and Funeral Service new student information packet to the Admissions Clerk. The packet is available at the program website.

On Campus

The MSFS program at SIU offers advanced education and quality facilities within a university environment.

In addition to the Carbondale facilities, students spend a semester long internship at a University approved funeral home.

Scholarships and Awards

Students who major in Mortuary Science and Funeral Service are eligible for a variety of scholarship opportunities through the University, the College of Applied Sciences and Arts, and from several local and national funeral service organizations.

For more information on some of these opportunities please visit SIU's financial aid webpage at: <http://fao.siu.edu/>

Student Organizations

This program is home to the Alpha Chapter of Sigma Phi Sigma, a business fraternity that provides the student with an opportunity to serve in the community and to network with the profession.

Support Services

- University Honors Program
- Career Services

- Disability Support Services
- Computer Labs

Sample Course Sequence for Mortuary Science and Funeral Service Students

To graduate with a degree in Mortuary Science and Funeral Service, students must complete 120 credit hours of academic study. The Mortuary Science and Funeral Service curriculum is designed to be a flexible program to accommodate the needs of our incoming freshman, transfer students, and our students who may already have an A.A. or an A.S. degree. Transfer students or students who have completed an A.A. or A.S. may be eligible for the Capstone Option which reduces the number of hours required in the University Core Curriculum. Current requirements for students are:

Fall Semester			Spring Semester		
<u>Year 1</u>
