Dear Prospective Medical Dosimetry Student:

Thank you for your interest in the Medical Dosimetry Program at Southern Illinois University Carbondale.

The Medical Dosimetry “Track One” program enrolls one class per year to begin in the fall semester. Because of a variety of circumstances, including rules of accreditation and limitations of facilities, the number of students enrolled is restricted. Each year students are chosen for admission using a thorough and fair selection process. To be considered for admission, one must complete and submit all requested application materials for evaluation by the deadline. It is very important that you follow the application procedures accurately and finalize your file as soon as possible as only completed files will be considered. The review of completed applications will begin January 1st. No additional material may be submitted for consideration after this date. Admission to the program will close when all positions in the class are filled.

If you are considered for acceptance into the program, each student must undergo a “Site Required” criminal background check and drug screening prior to participating in the required clinical internships. The results of these screenings may prohibit site placement and/or continuation in the program.

If you have any questions concerning the program, or the admission process, please feel free to contact me.

Sincerely,

Scott Collins, PhD, RT(R)(T) CMD
Program Director
Medical Dosimetry
The following items are needed to complete the Medical Dosimetry Program “Track One” application process.

1. _____ Apply to the Graduate School at Southern Illinois University Carbondale. Choose Master of Science degree programs then “Medical Dosimetry” on the Graduate School Application. Go to the website below and follow the “Apply Now” link to create your online Graduate School application:

   http://gradschool.siu.edu/applygrad/index.html

   Make sure you complete the entire application online.

2. _____ Send official copies of all college transcripts to the Medical Dosimetry Program Admissions Clerk. This must include grades received for the fall semester, if applicable.

   Medical Dosimetry Program Admissions Clerk
   School of Health Sciences, MC 6615
   College of Applied Sciences and Arts
   Southern Illinois University
   Carbondale, IL 62901
   (618) 453-7211

NOTE: It is important that you follow the procedures accurately and that your file is complete as soon as possible. Only completed files will be considered. Review of completed applications will begin January 1st. After the selection of students has concluded, a notification will be sent to each applicant regarding their admission status to the Program. If you have questions, please feel free to contact the admissions clerk at (618) 453-7211.
